2017 Variable Frequency Drive Rebate Instructions

If you have questions while completing this form, please contact your hometown electric utility weekdays during business hours for assistance.

Phone: 651-747-2413

Fax: 651-747-2425

Email: barb.huelsman@northstpaul.org

Send your completed application to:

City of North St. Paul
2400 Margaret Street
North Saint Paul, MN 55109

Checklist For Appliance Rebate Application:

- Dated invoice showing quantity, model number(s), and HP
- Completed Application including Rebate Calculation Table

By participating in our We Save program, you can save energy and earn a rebate when you purchase and install a new Variable Frequency Drive (VFD) on an HVAC system including fans (supply, return, and cooling tower) and pumps (hot water, chilled water, and condenser water).

What rebate can I earn?

New Variable Frequency Drive (1 hp – 200 hp) \$ 40 / hp

What are the benefits of Variable Frequency Drives?

VFDs save energy by allowing motor-driven devices like fans and pumps to vary the rate of speed at which they operate based on the actual needs of the equipment, rather than operating at a constant full speed.

Rebate Qualifications and Program Rules

- Rebate offered to non-residential electric customers served by a local municipal utility that is a participating member of MMPA.
- Rebate will be issued to the customer only. Maximum rebate amount shall be limited to 50% of project cost.
- Rebate Application must include a copy of paid, itemized invoice(s) showing quantity, model number(s), HP, price of all materials purchased, installation costs, and applicable taxes. Invoice must include contractor's name and address as well as installation address.
- Rebate Application including Rebate Calculation Table must be completed. Incomplete and/or illegible applications will not be processed.
- VFDs must be automatically controlled.
- Rebates are not offered for replacement drives.
- Utility reserves the right to conduct inspections of any and all installations before issuing the rebate. If Utility finds that the application does not comply with MMPA rules and qualifications, rebate amount may be adjusted. Call your local municipal electric utility representative for more information.
- Rebate requests are processed on a first-come first-serve basis. Annual rebate funds are limited. Rebate programs, qualifications, and amounts are subject to change at any time.
- Installation must be completed before submitting rebate application.
- Customer must apply for rebate within one year of purchase date shown on invoice.
- Rebate will not be given for equipment or designs that do not comply with local, state, or federal regulations.
- Utility is not liable for rebates promised to a customer as a result of a contractor misrepresenting the program.
- Utility is not responsible for any tax liability imposed as a result of the rebate payment.
- Utility gives no warranties, expressed or implied, with respect to equipment operation, material, workmanship, or manufacturing. The Utility does not guarantee that the implementation of energy-efficient measures or use of equipment purchased or installed pursuant to this program will result in energy or cost savings. In no event shall the Utility be liable for any incidental or consequential damage.
- Information contained in this rebate application may be shared with the Department of Commerce and MMPA.
- Qualifying customers must apply for rebate by November 30, 2017.

2017 Variable Frequency Drive Rebate Application

COMPLETE THESE SIX EASY STEPS TO GET YOUR REBATE.

STEP 1: CUSTOMER INFORMATION

Company Name:

Account #:

Contact Name:

Address:

City:

ZIP Code:

Email:

Phone:

Installation Address (if different):

STEP 2: VENDOR INFORMATION

Company Name:

Contact Name:

Address:

City:

ZIP Code:

Email:

Phone:

STEP 3: BUILDING TYPE

Office

Restaurant

Retail

Grocery

Warehouse

K-12 School

Hotel/Motel

College/University

Health

Hospital

Other: _____

STEP 4: COMPLETE REBATE CALCULATION TABLE

The attached Rebate Calculation Table calculates the dollar amount of the rebate. Print clearly and, unless marked "Optional", each column must be filled in. Table must be filled out for all VFDs for which a rebate is being requested. Rebate paid cannot exceed the purchase price of equipment.

STEP 5: ATTACH NECESSARY DOCUMENTATION

Copy of dated invoice including quantity, model number(s), and HP

STEP 6: CUSTOMER SIGNATURE

I hereby certify that all information is accurate including claims of efficiency, size, and customer information. I have read all information on this form and agree that MMPA may verify the information I have provided.
