Independent Auditors' Report

The Board of Directors
Minnesota Municipal Power Agency:

Report on Financial Statements

We have audited the accompanying financial statements of Minnesota Municipal Power Agency (the Agency), which comprise the statements of net position as of December 31, 2014 and 2013, and the related statements of revenues, expenses, and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Minnesota Municipal Power Agency as of December 31, 2014 and 2013, and the results of its operations and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Other Matter

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 3 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with managements' responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MINNESOTA MUNICIPAL POWER AGENCY

Management's Discussion and Analysis

December 31, 2014 and 2013

Financial Statements Overview

This discussion and analysis of Minnesota Municipal Power Agency's (the Agency) financial performance provides an overview of the Agency's activities for the fiscal years ended December 31, 2014 and 2013. The information presented should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

The Agency follows the Uniform System of Accounts prescribed by the Federal Energy Regulatory Commission. The basic financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. The Agency's basic financial statements include the statements of net position, the statements of revenues, expenses, and changes in net position, the statements of cash flows, and notes to the financial statements.

The statements of net position provide information about the nature and amount of assets and obligations (liabilities) of the Agency as of the end of each year reported. The statements of revenues, expenses, and changes in net position report revenues and expenses. The statements of cash flows report cash receipts, cash payments, and net changes in cash resulting from operating, capital and related financing activities, and investing activities.

Financial Highlights

Comparison of 2014 with 2013

The following table summarizes the financial position of the Agency as of December 31:

Condensed Statements of Net Position

	<u>2014</u>	<u>2013</u>	<u>Dollar change</u>	<u>Percentage change</u>
Capital assets, net	\$ 279,273,679	281,014,770	(1,741,091)	(0.6)%
Current assets	59,252,913	60,403,201	(1,150,288)	(1.9)
Other noncurrent assets	<u>57,814,783</u>	<u>53,373,491</u>	<u>4,441,292</u>	8.3
Total assets	396,341,375	394,791,462	1,549,913	0.4
Deferred outflows of resources	<u>1,788,969</u>	—	<u>1,788,969</u>	N/A
Total assets and deferred outflows	<u>\$ 398,130,344</u>	<u>394,791,462</u>	<u>3,338,882</u>	0.8
Current liabilities	\$ 24,422,643	27,390,664	(2,968,021)	(10.8)
Long-term liabilities	<u>287,433,515</u>	<u>290,974,213</u>	<u>(3,540,698)</u>	(1.2)
Total liabilities	<u>311,856,158</u>	<u>318,364,877</u>	<u>(6,508,719)</u>	(2.0)
Deferred inflows of resources	<u>37,629,591</u>	<u>35,215,990</u>	<u>2,413,601</u>	6.9
Total liabilities and deferred inflows	<u>349,485,749</u>	<u>353,580,867</u>	<u>(4,095,118)</u>	(1.2)

MINNESOTA MUNICIPAL POWER AGENCY

Management's Discussion and Analysis

December 31, 2014 and 2013

Condensed Statements of Net Position

	<u>2014</u>	<u>2013</u>	<u>Dollar change</u>	<u>Percentage change</u>
Net position:				
Net investment in capital assets	\$ 9,508,833	9,719,015	(210,182)	(2.2)
Restricted	6,298,873	5,733,585	565,288	9.9
Unrestricted	<u>32,836,889</u>	<u>25,757,995</u>	<u>7,078,894</u>	27.5
Total net position	<u>48,644,595</u>	<u>41,210,595</u>	<u>7,434,000</u>	18.0
Total liabilities, deferred inflows, and net position	<u>\$ 398,130,344</u>	<u>394,791,462</u>	<u>3,338,882</u>	0.8

Condensed statements of net position highlights are as follows:

- The assets of the Agency exceeded its liabilities at the close of 2014 by approximately \$48.6 million (net position) as compared with \$41.2 million at the end of 2013. Net position provides necessary liquidity to the Agency and supports its investment-grade credit rating.
- Capital assets, net decreased by approximately \$1.7 million during 2014 primarily the result of a decrease in electric plant in service associated with a grant received by Hometown BioEnergy, LLC that reduced the cost basis of the Hometown BioEnergy project and by depreciation on capital assets. This was partially offset by the Agency investing in a transmission line in Anoka, Minnesota.
- Current assets decreased by \$1.2 million from 2013 to 2014. Cash and cash equivalents decreased by \$1.9 million while short-term investments increased by \$3.0 million. Other receivables decreased by \$1.6 million. Power sales receivables increased \$0.2 million from 2013 to 2014.
- Other noncurrent assets, which include restricted cash and cash equivalents, noncurrent investments, restricted investments, prepaid expenses, and deferred costs, increased by approximately \$4.4 million from 2013 to 2014, primarily the result of a \$2.2 million increase in future recoverable costs related to the levelization of depreciation, bond interest, and costs associated with the Agency's capital lease. Noncurrent investments increased by \$2.0 million from 2013 to 2014.
- Deferred outflows of resources increased by \$1.8 million from 2013 to 2014 as a result of the Agency current refunding its Electric Revenue Bonds, Series 2004A and advance refunding a portion of its Electric Revenue Bonds, Series 2005.
- Current liabilities decreased by approximately \$3.0 million from 2013 to 2014 primarily the result of a \$2.0 million decrease of accounts payable and accrued liabilities and a \$1.0 million decrease in accrued interest payable.
- Long-term liabilities decreased by approximately \$3.5 million from 2013 to 2014, primarily the result of principal payments on Agency debt. This was partially offset by the issuance of the Agency's Series 2014 bonds.

MINNESOTA MUNICIPAL POWER AGENCY

Management's Discussion and Analysis

December 31, 2014 and 2013

- Deferred inflows of resources increased by \$2.4 million, primarily the result of the Agency making contributions to its rate stabilization account and other rate-related accruals in 2014.

Comparison of 2013 with 2012

The following table summarizes the financial position of the Agency as of December 31:

Condensed Statements of Net Position

	<u>2013</u>	<u>2012</u>	<u>Dollar change</u>	<u>Percentage change</u>
Capital assets, net	\$ 281,014,770	257,842,596	23,172,174	9.0%
Current assets	60,403,201	50,350,412	10,052,789	20.0
Other noncurrent assets	53,373,491	57,978,614	(4,605,123)	(7.9)
Total assets	394,791,462	366,171,622	28,619,840	7.8
Deferred outflows of resources	—	98,140	(98,140)	(100.0)
Total assets and deferred outflows	\$ <u>394,791,462</u>	<u>366,269,762</u>	<u>28,521,700</u>	7.8
Current liabilities	\$ 27,390,664	22,232,423	5,158,241	23.2
Long-term liabilities	290,974,213	280,223,528	10,750,685	3.8
Total liabilities	318,364,877	302,455,951	15,908,926	5.3
Deferred inflows of resources	35,215,990	28,665,491	6,550,499	22.9
Total liabilities and deferred inflows	353,580,867	331,121,442	22,459,425	6.8
Net position:				
Net investment in capital assets	9,719,015	8,010,528	1,708,487	21.3
Restricted	5,733,585	5,143,346	590,239	11.5
Unrestricted	25,757,995	21,994,446	3,763,549	17.1
Total net position	41,210,595	35,148,320	6,062,275	17.2
Total liabilities, deferred inflows, and net position	\$ <u>394,791,462</u>	<u>366,269,762</u>	<u>28,521,700</u>	7.8

Condensed statements of net position highlights are as follows:

- The assets of the Agency exceeded its liabilities at the close of 2013 by approximately \$41.2 million (net position) as compared with \$35.1 million at the end of 2012. Net position provides necessary liquidity to the Agency and supports its investment-grade credit rating.

MINNESOTA MUNICIPAL POWER AGENCY

Management's Discussion and Analysis

December 31, 2014 and 2013

- Current assets increased by \$10.1 million from 2012 to 2013, primarily the result of increased cash and cash equivalents. Current assets include cash and cash equivalents, accrued interest receivable, and short-term investments. Current assets also include power sales receivables, which did not change materially from 2012 to 2013.
- Other noncurrent assets, which include restricted cash and cash equivalents, prepaid expenses, and deferred costs, decreased by approximately \$4.6 million from 2012 to 2013, primarily the result of the use of approximately \$11.2 million of proceeds from the Agency's Series 2010A Electric Revenue Bonds for the Hometown BioEnergy project. This was partially offset by a \$4.8 million increase in future recoverable costs related to the levelization of depreciation and bond interest and costs associated with the Agency's capital lease.
- Capital assets, net increased by approximately \$23.2 million during 2013 primarily due to the construction of the Hometown BioEnergy project.
- Current liabilities increased by approximately \$5.2 million from 2012 to 2013 primarily due to the increase of accounts payable, retainage payable, and bonds due within one year.
- Long-term liabilities increased by approximately \$10.8 million from 2012 to 2013, primarily the result of the issuance of the Agency's Series 2013 bonds. This was partially offset by principal payments on Agency debt.
- Deferred inflows increased by \$6.6 million, the result of the Agency making contributions to its rate stabilization account in 2013. Deferred inflows represent the Agency's rate stabilization account and other rate-related accruals.

The following table summarizes the changes in financial position of the Agency for the years ended December 31, 2014 and 2013:

Condensed Statements of Revenues, Expenses, and Changes in Net Position				
	<u>2014</u>	<u>2013</u>	<u>Dollar change</u>	<u>Percentage change</u>
Operating revenues, power sales	\$ 104,878,860	106,103,819	(1,224,959)	(1.2)%
Other nonoperating revenues	3,081,874	949,652	2,132,222	224.5
Total revenues	<u>107,960,734</u>	<u>107,053,471</u>	<u>907,263</u>	0.8
Operating expenses	88,696,787	88,963,438	(266,651)	(0.3)
Other nonoperating expenses	14,097,285	16,615,086	(2,517,801)	(15.2)
Total expenses	<u>102,794,072</u>	<u>105,578,524</u>	<u>(2,784,452)</u>	(2.6)
Future recoverable costs	<u>2,267,338</u>	<u>4,587,328</u>	<u>(2,319,990)</u>	(50.6)
Change in net position	7,434,000	6,062,275	1,371,725	22.6
Beginning net position	<u>41,210,595</u>	<u>35,148,320</u>	<u>6,062,275</u>	17.2
Ending net position	<u>\$ 48,644,595</u>	<u>41,210,595</u>	<u>7,434,000</u>	18.0

MINNESOTA MUNICIPAL POWER AGENCY

Management's Discussion and Analysis

December 31, 2014 and 2013

Condensed statements of revenues, expenses, and changes in net position highlights are as follows:

- Operating revenues – power sales decreased by approximately \$1.2 million between 2014 and 2013 primarily the result of the expiration of a term sale to a nonmember customer. Operating revenues – power sales consist primarily of member power sales revenue, power sales to nonmembers, and other transmission revenue. Operating expenses decreased by approximately \$0.3 million between 2014 and 2013, primarily as a result of decreased power acquisition expense, partially offset by increased other operating expenses and depreciation.
- Other nonoperating revenues increased by approximately \$2.1 million between 2014 and 2013 primarily related to an increase in fair value of investments.
- Other nonoperating expenses decreased by approximately \$2.5 million between 2014 and 2013 as there was no loss on the disposition of property in 2014, whereas 2013 had a \$2.6 million loss on the disposition of property related to the Agency discontinuing development efforts on a wind project.
- Future recoverable costs decreased by approximately \$2.3 million between 2014 and 2013 primarily the result of the application of the Agency's policy regarding the levelization of costs for generating assets financed by debt and the application of the Agency's policy of not recognizing the change in value of investments for ratemaking purposes.

The following table summarizes the changes in financial position of the Agency for the years ended December 31, 2013 and 2012:

Condensed Statements of Revenues, Expenses, and Changes in Net Position

	<u>2013</u>	<u>2012</u>	<u>Dollar change</u>	<u>Percentage change</u>
Operating revenues, power sales	\$ 106,103,819	101,116,338	4,987,481	4.9%
Other nonoperating revenues	949,652	1,192,174	(242,522)	(20.3)
Total revenues	<u>107,053,471</u>	<u>102,308,512</u>	<u>4,744,959</u>	4.6
Operating expenses	88,963,438	86,794,323	2,169,115	2.5
Other nonoperating expenses	16,615,086	14,802,125	1,812,961	12.2
Total expenses	105,578,524	101,596,448	3,982,076	3.9
Future recoverable costs	<u>4,587,328</u>	<u>4,487,791</u>	99,537	2.2
Change in net position	6,062,275	5,199,855	862,420	16.6
Beginning net position	<u>35,148,320</u>	<u>29,948,465</u>	<u>5,199,855</u>	17.4
Ending net position	<u><u>\$ 41,210,595</u></u>	<u><u>35,148,320</u></u>	<u><u>6,062,275</u></u>	17.2

MINNESOTA MUNICIPAL POWER AGENCY

Management's Discussion and Analysis

December 31, 2014 and 2013

Condensed statements of revenues, expenses, and changes in net position highlights are as follows:

- Operating revenues – power sales increased by approximately \$5.0 million between 2013 and 2012 primarily due to higher rates. Operating revenues – power sales consist primarily of member power sales revenue, power sales to nonmembers, and other transmission revenue. Operating expenses increased by approximately \$2.2 million between 2013 and 2012, primarily as a result of increased transmission and other operating expenses.
- Other nonoperating revenues decreased by approximately \$0.2 million between 2013 and 2012 as there was no gain on bond retirement in 2013, whereas 2012 had a \$0.2 million gain on bond retirement.
- Other nonoperating expenses increased by approximately \$1.8 million in 2013 primarily due to a loss on the disposition of property related to the Agency discontinuing development efforts on a wind project.
- Future recoverable costs increased by approximately \$0.1 million in 2013 primarily due to the application of the Agency's policy regarding the levelization of costs for generating assets financed by debt.

Debt Administration

As of December 31, 2014, the Agency had long-term debt outstanding of approximately \$261.4 million.

On September 18, 2013, the Agency issued Electric Revenue Bonds Series 2013 in the amount of \$17.9 million. The bonds were issued for the purpose of constructing a bioenergy facility.

On September 24, 2014, the Agency issued Electric Revenue Bonds Series 2014 in the amount of \$46.4 million. The bonds were issued for the purpose of refunding the Agency's outstanding Electric Revenue Bonds Series 2004A and constructing a transmission line in Anoka, Minnesota.

On December 17, 2014, the Agency issued Electric Revenue Refunding Bonds Series 2014A in the amount of \$75.3 million. The bonds were issued for the purpose of advance refunding a portion of the Agency's outstanding Electric Revenue Bonds Series 2005.

Moody's upgraded the Agency's rating from A3 to A2 in 2014. The Agency continued to hold an A rating from Fitch in 2014.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

(1) Organization and Significant Accounting Policies

(a) *Organization and Operation*

Minnesota Municipal Power Agency (the Agency) was created as a municipal corporation and a political subdivision of the State of Minnesota by an agency agreement recorded with the Secretary of the State of Minnesota on May 11, 1992. The Agency's purpose is to secure an adequate, economical, and reliable supply of electric energy for its member municipalities. As of December 31, 2014, the Agency comprises 12 Minnesota municipalities. In 2013, the City of Elk River, by and through the Elk River Utilities Commission, joined the Agency, becoming its 12th member. Elk River will begin purchasing all of its power and energy needs from the Agency on October 1, 2018.

The accompanying financial statements present the Agency and its component units, entities for which the Agency is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the Agency's operations.

Blended Component Units: The Agency owns 100% of Minnesota Renewable Energy, LLC. Minnesota Renewable Energy, LLC owns 100% of Oak Glen Wind Farm, LLC and 100% of Hometown BioEnergy, LLC. Oak Glen Wind Farm, LLC is responsible for the operation of Oak Glen Wind Farm, a 44 megawatt (MW) wind project located in Steele County, Minnesota. Hometown BioEnergy, LLC is responsible for the operation of the Hometown BioEnergy project, an 8 MW renewable energy project located in Le Sueur, Minnesota. The Agency owns 100% of Hometown GeoPower, LLC. Hometown GeoPower, LLC provides services to residents of the Agency's member municipalities. The Agency owns 100% of MMPA Transmission LLC. MMPA Transmission LLC holds the Agency's transmission-related assets. Complete financial statements for each of the individual component units may be obtained from the Agency.

The Agency sells power to its members under long-term power sales contracts. Ten of the Agency's power sales contracts with members have a term that expires December 31, 2050. Two of the Agency's power sales contracts with members have a term that expires October 31, 2040. Under the terms of these contracts, the Agency is obligated to furnish, and each member is obligated to take and pay for, the total power and energy required by each member.

The Agency has entered into agreements with various providers to purchase accredited power and energy during 2014. The power capacity charge for 2014 is approximately \$2.3 million. Capacity commitments and charges include 41 MW of capacity purchased pursuant to an agreement with the City of Chaska, a member of the Agency. Under the terms of that agreement and its amendment, the Agency has agreed to make certain payments to the City of Chaska in exchange for the peaking power capacity provided by specified generation facilities owned by the City of Chaska in an amount at least sufficient, together with certain available interest income, to pay the principal of and interest on the bonded indebtedness issued by the City of Chaska for the construction of the generation facility. Energy rates assessed by the Agency vary based on contract terms and production costs.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

Minimum commitments under the terms of the power sales agreements to purchase power capacity for the next five years are as follows:

	<u>Megawatts</u>
Year ending December 31:	
2015	106
2016	91
2017	41
2018	41
2019	41

The Agency has an agreement with Xcel Energy Corporation (Xcel Energy) to provide transmission services through December 31, 2015. The Agency is obligated to pay for these services at rates established by the Federal Energy Regulatory Commission (FERC), \$36.50 per kilowatt per year at December 31, 2014, plus ancillary charges.

The Agency has an agreement with Rochester Public Utilities (RPU) to purchase 25 MW of capacity and energy from November 1, 2010 through May 31, 2015.

The Agency enters into contracts in connection with the purchase, generation, and sale of electric power to or from its member cities, the Midcontinent Independent System Operator (MISO), and other wholesale market participants. A substantial portion of these contracts are for the purchase of natural gas at power plants owned and operated by the Agency and for the physical delivery of power to designated interconnection points on the electric grid as a normal course of business. Substantially all of the Agency's power purchases and sales are with MISO. The Agency also enters into futures or forward contracts to manage exposure to unfavorable trends in the prices of fuel (natural gas) and electric power, which are directly related to the business of the Agency. Open positions at the end of the year are carried at fair value in the Agency's financial statements with an offsetting deferral amount to reflect the effectiveness of the hedge.

Additionally, the Agency has agreements for dispatching, billing, maintenance services, and other general administration. The Agency has a contract with Avant Energy, Inc. to manage the Agency, which terminates on December 31, 2023.

(b) Basis of Accounting

The Agency follows the FERC's Uniform System of Accounts and maintains accounting records on an accrual basis in conformity with U.S. generally accepted accounting principles, including the application of Governmental Accounting Standards Board (GASB) Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, as the guidance relates to Regulated Operations. The guidance allows for the deferral of revenues and expenses to future periods in which the revenues are earned or the expenses are recovered through the rate-making process.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

(c) Capital Assets

Capital assets are recorded at cost, including capitalized interest on borrowed funds during construction. The capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life. The Agency capitalized interest cost of \$0 and \$218,023 for the years ended December 31, 2014 and 2013, respectively.

The Agency follows a preventative and predictive approach to its maintenance of the Faribault Energy Park (FEP) facility. In doing so, it inspects the combustion turbine and steam turbine and performs major maintenance at intervals suggested by the turbine manufacturers. Periodically, one set of combustion parts is removed from the turbine and a replacement set is rotated into the turbine. The parts that have been removed are refurbished and are then ready to be rotated back into the turbine at the next major maintenance cycle. The Agency is depreciating the cost of the combustion turbine spare parts over the remaining life of the FEP asset. The amount on the statements of net position is the gross acquisition cost, with depreciation associated with the parts included in accumulated depreciation.

Equipment is recorded at cost and consists of telecommunication equipment, transportation equipment, and certain maintenance/testing equipment. Depreciation is provided over the estimated useful lives of the property and equipment by use of the straight-line method. Generally, the estimated useful life is 30 years for electric plant, 40 years for transmission assets, and 5 years for telecommunications equipment and transportation equipment. Other specialized equipment may differ.

(d) Restricted Cash and Cash Equivalents

The Agency's bond resolution requires the segregation of bond proceeds and prescribes the application of the Agency's revenues. Amounts classified as restricted cash and cash equivalents on the statements of net position represent cash and cash equivalents whose use is restricted by the bond resolution. It is the Agency's policy to use restricted resources first for debt service, and then unrestricted resources as they are needed.

(e) Investments and Short-Term Investments

Investments are reported at fair value based on quoted market prices. Short-term investments comprise certificates of deposit having an initial maturity of less than one year when purchased and banker's acceptances having an initial maturity of less than one year when purchased.

(f) Deferred Costs to Be Recovered in Future Periods

Rates charged to members include amounts sufficient to pay levelized principal and interest payments on long-term debt. For financial reporting purposes, the Agency recognizes depreciation and amortization pertaining to capital assets and other assets financed by long-term debt in addition to interest paid on such debt. As permitted by the application of the provisions of GASB 62, the Agency defers the current depreciation, amortization, and interest costs in excess of levelized principal and interest costs on long-term debt for assets placed into service prior to September 24, 2013. These costs will be recovered through rates charged to members in future periods when the levelized costs of principal and interest on long-term debt exceed the then current depreciation and interest costs related to such issues.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

(g) *Unamortized Debt Premium/Discount*

Debt premium/discount is amortized over the repayment period of the related issues using the straight-line method, which approximates the effective-interest method.

(h) *Cash Flows*

For purposes of the statements of cash flows, cash equivalents are cash and equivalents and investments having an initial maturity of three months or less when purchased.

(i) *Power Sales Receivables*

Power sales receivables represent power sales for the period between the last billing date and the end of the period that are accrued in the period earned.

(j) *Fuel Inventory and Plant Inventory – Spares*

Fuel inventory and plant inventory – spares are valued on a cost basis, using the first-in, first-out (FIFO) method, which does not exceed market.

(k) *Rates*

Rates and charges for providing wholesale power supply are reviewed and adopted by the Agency's board of directors. Power supply services provided by the Agency are not subject to state or federal regulation.

(l) *Revenue Recognition*

The Agency recognizes revenue on sales when the electricity is provided to and used by the customers. The Agency reports only the net amount of operating revenues – power sales and power purchases expense resulting from its transactions with MISO as revenue.

(m) *Operating Revenues and Expenses*

Operating revenues result from exchange transactions associated with the principal activity of the Agency, the sale of electricity. Reported operating revenues are affected by contributions to or distributions from the rate stabilization account. Operating expenses are defined as expenses directly related to, or incurred in support of, the production and transmission of electricity to the participating members. All other expenses are classified as nonoperating expenses.

(n) *Income Taxes*

The Agency is exempt from federal and state income taxes as it is a political subdivision of the State of Minnesota.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

(o) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Cash, Cash Equivalents, and Investments

The agency agreement that established the Agency and the bond resolution, under which the Electric Revenue Bonds were issued, provides for the creation and maintenance of certain funds and accounts. The funds and accounts consist principally of deposits and investments in accordance with the agency agreement, bond resolution, and applicable state law. Funds and accounts are reported in the financial statements as follows:

	December 31	
	2014	2013
Current assets:		
Cash and cash equivalents	\$ 39,090,296	41,035,465
Restricted cash and cash equivalents	4,299,485	5,633,179
Short-term investments	2,999,556	—
Subtotal	46,389,337	46,668,644
Noncurrent assets:		
Restricted cash and cash equivalents	441,405	283,156
Investments	2,000,000	—
Restricted investments	22,206,743	22,072,759
Subtotal	24,648,148	22,355,915
Total	\$ 71,037,485	69,024,559

At December 31, 2014, all deposits for the Agency were insured or collateralized by securities held by the Agency's agent in the Agency's name.

In accordance with its investment policy, the Agency invests in the following types of investments, subject to the limitations and requirements of Minnesota statutes:

- Interest bearing checking accounts
- U.S. Treasury bills, bonds, and notes
- U.S. government agencies and instrumentalities securities
- State and local securities
- Minnesota Joint Powers Investment Trusts

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

- Certificates of deposit
- Banker’s acceptances of U.S. banks eligible for purchase by the Federal Reserve System
- Commercial paper issued by U.S. corporations or their Canadian subsidiaries, of the highest quality and maturing within 270 days
- Money market mutual funds – open-end, no-load
- Guaranteed investment contracts
- Repurchase agreements fully (100%) collateralized by U.S. securities

(a) Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will be adversely affected by a change in interest rates.

The Agency had the following investments and maturities as of December 31, 2014 and 2013:

	December 31, 2014			December 31, 2013		
	Investment maturities (in years)			Investment maturities (in years)		
	Less than one year	Greater than one year	No maturity	Less than one year	Greater than one year	No maturity
Investment type:						
U.S. government agencies \$	7,681,310	10,708,707	—	7,523,133	9,027,429	—
U.S. Treasuries	—	—	—	—	668,806	—
Commercial paper	15,013,742	—	—	—	—	—
Banker’s acceptances	1,999,556	—	—	—	—	—
Certificates of deposit	1,000,000	2,291,000	—	—	291,000	—
State and local bonds	—	3,525,726	—	—	4,562,391	—
Money market accounts	—	—	4,589,025	—	—	5,815,929
Cash and cash equivalents	—	—	24,228,419	—	—	41,135,871
Total	\$ 25,694,608	16,525,433	28,817,444	7,523,133	14,549,626	46,951,800

(b) Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk is measured using credit quality ratings of investments in debt securities as described by nationally recognized rating agencies such as Standard & Poor’s and Moody’s. The certificates of deposit are FDIC insured. The money market accounts and cash and cash equivalents are invested in short-term U.S. government securities and commercial paper.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

The following tables list the credit quality ratings per Standard & Poor's and/or Moody's of the Agency's investments as of December 31, 2014 and 2013:

		December 31, 2014			
		Quality ratings			
	Amount reported	AA	AAA	P-1/A-1+	Unrated

Total	\$ 69,024,559	21,781,759	5,815,929	41,426,871

(c) Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a counterparty, the Agency will not be able to recover the value of the investments, collateral securities, or deposits that are in the possession of the counterparty. The Agency's adopted and revised investment policy addresses, among other things, custodial credit risk. At December 31, 2014 and 2013, all of the Agency's investments are insured and registered and are held by the counterparty's trust department or agent in the Agency's name.

(d) Concentration of Credit Risk

The Agency does not have an investment policy related to investing 5% or more of the Agency's portfolio in the securities of a single issue.

MINNESOTA MUNICIPAL POWER AGENCY

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

(4) Long-Term Debt

The Agency has issued the following Electric Revenue Bonds to finance its construction activities:

	2014	2013
Series 2004A, 3.40%–5.25%, due October 1, 2010 to 2034	\$ —	46,465,000
Series 2005, 3.50%–5.25%, due October 1, 2007 to 2035	16,745,000	99,685,000
Series 2007, 4.00%–5.25%, due October 1, 2007 to 2037	23,355,000	23,905,000
Series 2009A, 1.40%, due October 1, 2009 to 2023	3,000,000	3,333,333
Series 2010A, 3.00%–5.25%, due October 1, 2011 to 2035	80,200,000	82,340,000
Series 2013, 3.00%–5.00%, due October 1, 2014 to 2023	16,470,000	17,915,000
Series 2014, 2.00%–5.00%, due October 1, 2015 to 2044	46,395,000	—
Series 2014A, 3.50%–5.00%, due October 1, 2016 to 2035	75,250,000	—
	261,415,000	273,643,333
Total bonds outstanding		
Less current maturities	(8,813,334)	(8,058,333)
Add unamortized premium	14,055,792	3,796,358
	\$ 266,657,458	269,381,358

On September 24, 2014, the Agency issued Electric Revenue Bonds Series 2014 in the amount of \$50.8 million, including net premium on the bonds. \$6.6 million of the bonds were issued for the purpose of constructing a transmission line in Anoka, Minnesota. \$44.2 million of the bonds were issued for the purpose of current refunding the Agency's outstanding Electric Revenue Bonds Series 2004A. The net proceeds of \$43.9 million (after payment of \$0.3 million in underwriter's discount and issuance costs) plus an additional \$2.8 million of Agency funds were deposited with the Agency's bond trustee and used to pay the principal and interest on the Agency's Series 2004A bonds when due on October 1, 2014, and to redeem all remaining outstanding Series 2004A bonds.

The current refunding resulted in a difference between the reacquisition price and net carrying amount of the old debt of \$0.4 million. This difference, reported on the Agency's statement of net position as a deferred outflow of resources, is being charged to interest expense through the year 2034 using the straight line method, which approximates the effective interest method. The Agency completed the current refunding to reduce its total debt service payments over the next 20 years by \$15.6 million and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$10.1 million.

On December 17, 2014, the Agency issued Electric Revenue Refunding Bonds Series 2014A in the amount of \$83.8 million, including net premium on the bonds. The bonds were issued for the purpose of advance refunding a portion of the Agency's outstanding Electric Revenue Bonds Series 2005. The net proceeds of \$83.4 million (after payment of \$0.4 million in underwriter's discount and issuance costs) plus an additional \$0.8 million of Agency funds were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series 2005 bonds that were advance refunded. As a result, the advance refunded portion of the Series 2005 are considered to be defeased and the liability for those bonds has been removed from the Agency's statement of net position. As of December 31, 2014, \$16.7 million of the Series 2005 bonds were not refunded and remain on the Agency's statement of net position. At December 31, 2014, \$80.3 million of the 2005 bonds outstanding are considered defeased.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

The advance refunding resulted in a difference between the reacquisition price and net carrying amount of the old debt of \$1.3 million. This difference, reported on the Agency's statement of net position as a deferred outflow of resources, is being charged to interest expense through the year 2033 using the straight line method, which approximates the effective interest method. The Agency completed the current refunding to reduce its total debt service payments over the next 21 years by \$6.8 million and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$7.5 million. Electric Revenue Bonds are the major source of financing for the Agency's construction activities. These bonds are secured by a pledge of the net revenues derived from the operation of the system and a grant of a security interest in certain other property and contract rights of the Agency.

Debt service requirements on the outstanding bonds are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 8,813,334	11,650,604	20,463,938
2016	8,713,333	11,959,552	20,672,885
2017	9,113,333	11,556,585	20,669,918
2018	9,523,333	11,143,344	20,666,677
2019	9,968,333	10,694,965	20,663,298
2020–2024	54,178,334	46,420,635	100,598,969
2025–2029	56,530,000	33,528,956	90,058,956
2030–2034	78,160,000	18,710,988	96,870,988
2035–2039	24,765,000	1,925,263	26,690,263
2040-2044	1,650,000	203,200	1,853,200
	<u>\$ 261,415,000</u>	<u>157,794,092</u>	<u>419,209,092</u>

The Agency has an agreement with the City of Chaska to purchase capacity, described more fully in note 1. A portion of the payments under this agreement are accounted for as a capital lease. Future minimum payments under the agreement are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Executory costs</u>	<u>Payment</u>
2015	\$ 816,798	1,233,577	590,692	2,641,067
2016	865,561	1,184,815	590,692	2,641,068

(5) Power Acquisition Expense

Power acquisition expense consists primarily of power purchases, production fuel, and related expenses. The Agency sells substantially all of the power and energy produced by its generating facilities into the MISO market and purchases substantially all of its power and energy needs for sales to members and others from the MISO market. The Agency reports its purchases from and sales to MISO on a net basis. The components of power acquisition expense are as follows:

	<u>2014</u>	<u>2013</u>
Power purchases	\$ 31,084,259	31,296,512
Production fuel	<u>13,754,770</u>	<u>17,517,458</u>
Total power acquisition expense	<u>\$ 44,839,029</u>	<u>48,813,970</u>

(6) Credit Facilities

The Agency entered into a \$5.0 million credit facility October 1, 2008. This facility was renewed in September 2011 and again in June 2013. The commitment fee is 0.45% per annum; interest on outstanding balances is tied to the prime rate. The facility expires on June 30, 2016. There were no amounts outstanding as of December 31, 2014 or 2013.

MINNESOTA MUNICIPAL POWER AGENCY

Notes to Financial Statements

December 31, 2014 and 2013

(7) Risk Management

The Agency is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters.

The Agency participates in a public entity risk pool related to public officials' liability. The Agency has a \$60,000 deductible per occurrence, with a \$200,000 annual maximum deductible for its liability coverage. The Agency also purchases municipal automobile coverage from the same public entity risk pool with a \$1,000 deductible per occurrence.

The public entity risk pool has purchased a reinsurance policy to guard against excessive losses.

The Agency also carries commercial insurance for its risks of property loss, business interruption, and general liability. The Agency's property loss has varying deductibles based on the equipment insured that range from \$250,000 to \$1,500,000. The Agency's business interruption insurance has a 60 day deductible.

The Agency also has an umbrella policy related to its municipal automobile insurance and general liability insurance.

Settled claims have not exceeded insurance coverage in any of the past three years for any of the Agency's insurance policies.

(8) Contingencies

The Agency is a party to various contracts for the sale, purchase, and transmission of power. In the ordinary course of business, contractual disputes sometimes occur between the Agency and its counterparties. The Agency does not expect the outcome of any existing dispute resolution proceedings to have a material adverse impact on financial position, results of operations, or cash flows.

The Agency is a market participant in the MISO "Day 2" electricity markets. MISO does not provide final settlement results for a trading day until 105 days after a trading day. The financial statements reflect the Agency's best estimates of final settlement results since the commencement of "Day 2" electricity markets on April 1, 2005.
